THE MSL-100, MSL-200 and MSL-300
look identical but they do have different functions.

How do I determine if I have the MSL-100
Enter: * then #
- **MSL-100**: after * and # the keypad will beep three times along with three green flashes
- **MSL-200 and MSL-300**: after * and # the keypad will do nothing

THE MSL-100
- **After you enter * then # on the keypad you get three beeps along with three green flashes, you have a MSL-100.**
- The top row of numbers on my keypad is 1,2,3.
- There is a OPEN and SET light on the keypad above the numbers 1,2,3.
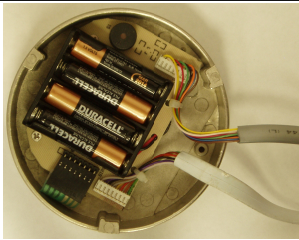

MSL-100

How to determine if I have the MSL-200 or the MSL-300
Remove the keypad housing to expose the battery compartment:
- The **MSL-200** has two groups of wires going into the safe.
- The **MSL-300** has one group of wires going into the safe.

THE MSL-200
- **Remove the keypad housing and if you see two groups of wires going into your safe you have a MSL-200.**
- The top row of numbers on my keypad is 1,2,3.
- After you enter * then # on the keypad there is no beeps or flashes.

MSL-200

THE MSL-300
- **Remove the keypad housing and if you see one group of wires going into your safe you have a MSL-300.**
- The top row of numbers on my keypad is 1,2,3.
- After you enter * then # on the keypad there is no beeps or flashes.

MSL-300
